- **Supercharged Limited Edition & GT Limited Edition now available**
- **Red Brembo™ brake calipers for Supercharged models**
- **Striking new alloy wheel design**
- **Wider choice of interior color combinations**
- **Towing package introduced as an option**

Mahwah, N.J., May 15, 2012 – For 2013, the Range Rover Sport continues as the definitive Sports SUV with new colors and a greater choice of interior trim and alloy wheel designs.

To complement the exterior design changes refreshed for the 2012 model year - in 2013 a striking new five-spoke cast alloy wheel design in Sparkle Silver becomes standard on the Range Rover Sport Supercharged. Customers opting for the Supercharged model will discover stunning red Brembo™ brake calipers fitted as standard with the option of reverting back to black high performance brakes at no additional cost.

The interior specifications offer two new interior trim combinations allowing customers to choose a dark upper cabin environment with lighter colored seats or the opposite way round. A towing package has also been introduced as an option across all models and consists of a tow hitch receiver, trailer towing electrics and variable rear differential lock.

The Range Rover Sport comes equipped with a high level of audio equipment, as introduced at 2012 model year. The Harmon Kardon™ system delivers 380W of sound from a total of 11 speakers while the premium Harmon Kardon LOGIC7 system produces an astonishing 825W from no less than 17 speakers.

Advanced features include a hard disc drive music server and Land Rover's "Say What You See" voice recognition system with screen prompts.

An outstanding Range Rover Sport engine line-up remains unchanged for 2013. The naturally aspirated 5.0-liter produces 375HP with 375lb-ft torque and the

flagship 5.0-liter Supercharged, a stunning 510HP with 461lb-ft torque. All engines drive through ZF automatic gearboxes.

2013 Range Rover Sport Supercharged Limited Edition

The 2013 Range Rover Sport Supercharged Limited Edition provides drivers with a combination of luxurious interior appointments and sporting exterior design changes. With 510 horsepower at the ready, the Supercharged Range Rover Sport has extraordinary performance capabilities.

In addition to the standard supercharged features, many enhancements are finished in red including a “Sport” badge on the rear tailgate, front and rear brake calipers, as well as an embroidered red sport logo appears on the feature finger and the carpet mats. Customers can also opt for a new carbon veneer pack, adding a sharp, contemporary look to the interior.

For the U.S. market there are only 300 units being produced in Santorini Black, and only 200 units in Fuji White.

2013 Range Rover Sport GT Limited Edition

The 2013 Range Rover Sport GT Limited Edition offers luxury interior and distinctive exterior design details, together with other popular equipment that provides a more differentiated expression of the HSE specification vehicle.

Among other features, the GT Limited Edition includes an extended rear roof spoiler, unique rear chrome exhaust treatments, 20” black five spoke alloy wheels, steering wheel mounted shift paddles, and the premium LOGIC7 audio system with SAT and HD radio.

A limited number of 450 will be built in Santorini Black, with an additional 300 units being produced in Fuji White.

About Land Rover

Land Rover, the British maker of Land Rover and Range Rover sport utility vehicles, is renowned for providing its' clientele with some of the most luxurious and capable vehicles in the world. Every Land Rover and Range Rover is equally at home both on and off road, and in any setting; be it in the heart of the city, or traversing the countryside. Today's Land Rover lineup includes the legendary Defender, LR2 (Freelander 2), LR4 (Discovery 4), Range Rover Sport, Range Rover and Range Rover Evoque. Land Rover designs, engineers, and manufactures their vehicles in the United Kingdom. Land Rover is fully engaged with sustainability initiatives and social concerns with continuous involvement in environmental and community programs.

About Jaguar Land Rover North America, LLC

Jaguar Land Rover is a business built around two great British car brands that are designed, engineered and manufactured in the United Kingdom. Jaguar Cars Limited, founded in 1922, is one of the world's premier manufacturers of luxury sedans and sports cars. Since 1948, Land Rover has been manufacturing authentic 4x4s that define “breadth of capability” in their segments.

Jaguar manufactures all their cars exclusively in the United Kingdom, at the Castle Bromwich manufacturing plant in the British Midlands. Land Rover and Range Rover models are built in the United Kingdom at the Solihull and Halewood plants. Land Rover exports to 169 countries and Jaguar exports to 63 countries, with global sales for both brands exceeding 240,000 vehicles annually. The Jaguar Land Rover business employs 16,000 people in United Kingdom, including 3,500 engineers at two product development centers.

Headquartered in Mahwah, New Jersey in the United States, Jaguar Land Rover North America, LLC has offices across the USA and Canada and is represented by more than 330 retail outlets.
